

Message From the Director

Dear Students,

I feel privileged in penning down few of my deep seated feelings, about H.I.T.S., which I had established way back on 10th Nov. 1991. It was my desire to raise an Institute which would be a complete grooming centre, rendering best possible education and I wanted to amalgamate Academics with humane element in my students so that when they become professionals they could lead a value based life. With more than 16,000 successful professionals churned out, today we feel proud of their & our achievements.

Dear friends, when you are a crossroads there is very little scope of error. You have to be judgemental and firm about your decision and I can assure you that your decision of joining H.I.T.S shall prove to be a proud moment of your lifetime. Over the years the faith reposed in us by parents has motivated us to be more sincere towards our goal.

With my dedicated faculty members and staff, I pledge to put in sincere efforts to make your career bright.

Sincerely,

A handwritten signature in black ink, appearing to read 'Devan Khullar', written over a horizontal line.

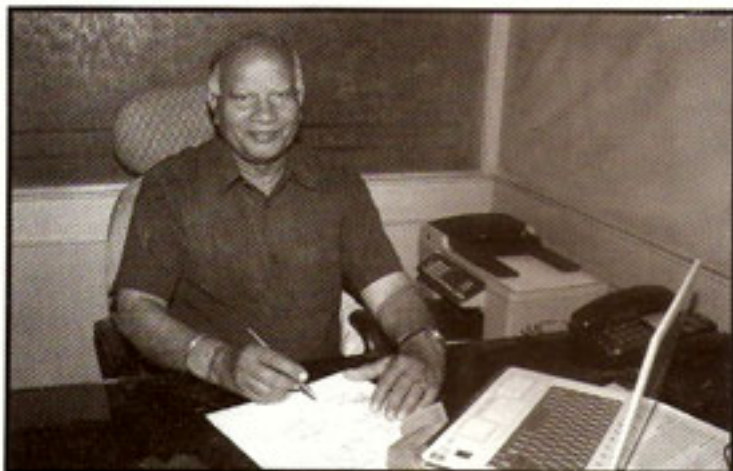

DEVEN KHULLAR

Established in 1991, over the years H.I.T.S has gained tremendous reputation for being the institute that is totally committed to bringing out the best in a child and help him or her groom in as a successful professional with ethics & values.

H.I.T.S. is a consortium of extremely committed and professional teachers who are well adapted with C.B.S.E. changing trends and curriculum and exactly know how to inculcate the confidence in a child to counter the stress of Academics and in particular Examinations.

The set of professionals associated with H.I.T.S. are highly reputed names in the field of education and have earned amazing Laurels for H.I.T.S. with wonderful results that our students have bestowed upon us over the years.

To make an Institute a success a strong administration and good follow up is required which is taken care of by our Director (Admn.).

Mr. B.S. KHULLAR (DIRECTOR ADMN.)

COURSE PLANNER - C.B.S.E.

Students are given interaction thrice a week for each subject and classroom coaching is conducted by expert teachers who pick up the ward from scratch and groom them. Classes follow assignments which are quite exhaustive covering every aspect of the syllabus taught.

ABOUT TEST SERIES

The most important step of our curriculum is our testing pattern, which we have observed has made commendable changes in child's confidence level to tackle the paper and at the same time help them learn how to attempt the papers.

TESTING PROGRAMME

UNIT TEST

The syllabus covered every month, will be the portion for which U.T. will be conducted. It will be 1 hr. 15 minutes test strictly according to the C.B.S.E. pattern.

SEMESTER EXAMS

At times it is observed that a child performs well in a U.T. but when it comes to bulk syllabus they wilt under pressure. To counter this H.I.T.S. has the Semester Exams by virtue of which bulk syllabus is tested.

MOCK EXAMS

In January and February there are mock Exams and Test and Discussion series. These full course exams help the child take care of the pressure of examinations.

For all the above exams, discussions are carried out in classes.

ACADEMIC PROGRAMME

MODULE -I

XITH - XIITH C.B.S.E. CUM ENG. / MED.

When students finally opt for science stream the motive behind the two year hard work is to clear one of the entrance exams of Engg. or Medicine and to assist them in doing so we have a 2 year programme for class XIth students and 1 Year programme for Class XIIth students. These are the comprehensive packages in which unlike some institutes who claim to be teaching for I.I.T. or Medicine a technical approach is adopted. We belong to the school of old thought that merely by doing difficult problems or certain set of problems you cannot clear an entrance exam but what you require is to strengthen your basics and then start applying yourself to learn shortcut methods to counter multiple-choice question and with the changing pattern of Board Exams, this programme complements the C.B.S.E. curriculum.

MODULE -II

XITH - XIITH SCIENCE STREAM C.B.S.E.

Subjects : - PHYSICS, CHEMISTRY, MATHS, BIOLOGY

Crash Courses for : ENGLISH, COMPUTERS

MODULE -III

XITH - XIITH COMMERCE STREAM

For Commerce students we provide coaching for ACCOUNTS, MATHS & ECONOMICS

Crash Course For : ENGLISH, BUSINESS STUDIES

MODULE -IV

IXTH - XTH

Subject : - MATHS, SCIENCE

Crash Courses for : HINDI, ENGLISH, SOCIAL SCIENCE

MODULE -V

VIITH -VIIITH

Subject : - MATHS, SCIENCE

Crash Courses for : HINDI, ENGLISH
