

The Beautiful World of Animals

INTRODUCTION: The project for the month of November is **The Beautiful World of Animals**. We would be conducting it in a manner which would be a fun and interactive way for our young students. The toddlers would be introduced to the Animal Kingdom and we would take them through the domestic or the Pet animals, Wild or the Jungle animals, Water animals and birds. It would be a systematic introduction as given below:-

- Week 1: Five Domestic animals
- Week 2: Five Wild animals
- Week3: Five Water animals
- Week4: Five Birds

OBJECTIVE: To help children understand the different variety of animals their habitat, the sounds they make, and food.

ACTIVITIES:

- Domestic animals:
 - Making a puppet of a dog, pasting cotton on a sheep, coloring a cow etc. such activities can be taken.
 - Animal sounds
 - What do pet animals give us Eg: cow gives us milk
 - Animal homes Eg: dog lives in a kennel

Objective: To make the children understand different pet animals, their sounds and what pets give us.

- Wild animals
 - Making a face mask of lion or monkey, finger printing on a giraffe, pasting black strips on a zebra, such activities can be taken.
 - Animal sounds
 - Animal shelters Eg: lion lives in a den.

Objective: To make the children understand different wild animals, their sounds.

- Water animals
 - Introduction of water animals like fish, dolphin, whale, octopus, star fish and sea horse. Also amphibians like tortoise, seal and crabs can be introduced. Tissue dabbing on a fish, finger dabbing on a sea horse and frog, and pasting star fish in the scrap book, such activities can be taken.

Objective: To introduce different kinds of aquatic animals and amphibians.

- Birds
 - Introduction of different birds like parrot, peacock, eagle, sparrow and crow.
 - Colour dabbing on parrot, pasting paper feathers on a peacock, pasting cut out of a crow in the scrap book, such activities can be taken.
 - Bird sounds Eg: crow says kaa kaa
 - An audio-visual clip of different birds to show how they fly high up in the sky can be shown.

Objective: to introduce different types of birds, with their sounds.

PARENTAL INVOLVEMENT:

- Please reinforce the activities at home with your little one.
- If possible take your child to the zoo and share with us your child's experiences.
- Take pictures of your child's involvement and send it back to us in a folder by the end of this month.

We would be glad to hear about more innovative ways of introducing the concept to the children.
